PLANS MADE FOR HUSSAR STAMPEDE

Twenty-fourth of May Celebration

HUSSAR, April 17.—The plans for the Hussar stampede on May 24th were the chief matters discussed at the meeting of the Board of Trade on April 11th. The committees appointed were: arrangements, J. H. Hurch, P. C. Parry, and S. D. Swan; publicity, T. A. Hawkshaw, H. D. Brown, and B. J. Bell. Other committees will be appointed later. It was decided to ask for tenders to be submitted by May 1st for the carnival concessions, either singly or collectively; deposit of 25 per cent down and the balance on May 15th. As A. A. Cliffield resigned the chairmanship of the Board of Trade, E. J. Bell was elected to that position. It was decided to postpone the matter of continuous telephone service for discussion at a later date.

The Board of Trade decided to work with the village council in the clean-up campaign being put on for the month from April 15th to May 15th, and the village was divided into six blocks with a committee in charge of each.

A letter from the Wayne Board of Trade was read. It asked for the co-operation of Hussar in getting the road from Wayne to Hussar in shape to connect with the Calgary highway at Hussar. The secretary was instructed to ask the Drumheller Board of Trade to appoint a date when the Wayne and Hussar Boards of Trade may meet with them to discuss this matter. The secretary was also instructed to forward a letter to different U. P. A. and village organizations concerning the Calgary-Medicine Hat highway. The golf course is being constructed on the sports grounds.

On Saturday the grading of the streets of Hussar began with Nelson's road gang, with W. J. Hoagland supervising.

Rosemary News

Pickett and family have left for their new home about eight miles southwest of Arrowwood.

The Ashcroft family were Sunday visitors at J. Adams'.

Members of the Ladies' Club spent an enjoyable afternoon at the home of Mrs. F. Adams on Tuesday.

Inspector Boyce paid a visit to the school Wednesday.

J. Adams is the owner of a Ford car now.

F. Gellings was in Bassano Saturday.

Miss Margaret Norton, from Bassano, spent Sunday with her parents here.

Bill Tauffert has gone to Calgary. Several cars of young folks slowly wended their way to the Brooks dance last Thursday night.

Mr. and Mrs. J. Haebgar and family of Hutton, spent Sunday with the Taggart family.

Mr. and Mrs. Brown are moving to the Mackenzie place this week.

We see Frank Denner is making good use of his newly purchased Ford.

The Alrand family have moved on to the McKelvie place.

The Gellings family enjoyed the visit of Mr. and Mrs. McKelvie Sunday.

Countess News

COUNTRESS, April 18.—M. H. Gainship shipped three wagon loads of fat hogs to Calgary on Tuesday. The car was loaded at Countess.

H. Cowen has been doing the grinding for Mallick's summer use the last of the week.

A number of the Countess farmers started to work on the land Monday. Mrs. Max Gamble had some friends in for bridge Thursday afternoon.

Mrs. O. Swanson returned from the States the first of the week, bringing back her father who has been very ill.

A number of the Countess ladies have bought incubators, and the going into the chicken business proper. Mr. M. G. Ferguson has 20 turkey hens, and expects to raise a big bunch of turkeys.

Mrs. Max Gamble, Carl, and Marianna, and Mrs. Shew, spent an afternoon with Mrs. Newman this week.

J. Newman is the lucky man. His old boy cow gave birth to twin in for bridge Thursday night. Both are doing fine.

Word received from Mr. and Mrs. Dingley one day last week states that "the weather was fine, fair sailing and friendly passengers to Prince."

A United Church student will hold services this summer at Countess, and Rosemary, and is expected to arrive early next month.

Several cartons of milk cows arrived here, but the distribution among the new settlers.

The popular Dan Gillies arrived here Wednesday to work on the section.

Golf Club Will Shape Plans For The 1929 Season

Early Golfers Find Course in Fairly Good Condition

Additional to the work and ancient game were out on the road links last week limbering up their golf muscles in preparation for the 1929 season.

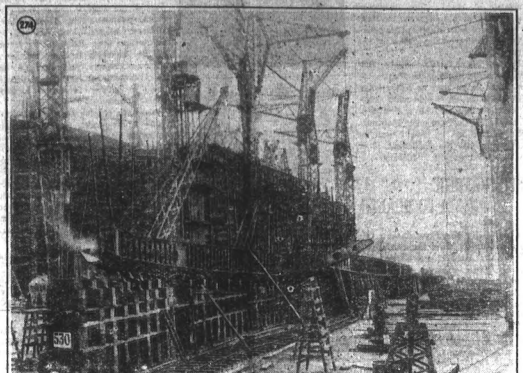

The course was found to be in fairly good condition. Some of the sand had been blown off a number of the greens, but a little work with the mact helped considerably.

The fairways were not so good where the grass was long, and the weeds and grass along the ditch bank gave some trouble, but good play was possible without any great difficulty.

The golf season began this spring with very little work on the course. The reason for this was the extremely light snowfall last winter. Only three sloughs contain water, one in front of No. 1 tee, one in front of No. 3 green, and the one near No. 5 green, and in each case the pond is only a few yards in width.

The golf club has not yet been organized for this year, but the annual meeting will be held next Monday evening, April 22nd, at 8 o'clock in the office of A. G. Bond. All golfers are invited to attend this meeting and help the club away to a good start. The club is in a healthy financial condition this spring, having more than \$50.00 in the bank.

NEW EMPRESS UNDER CONSTRUCTION

Out of this noisy forest of steel derricks will shortly come a dignified order in the shape of a new forty-four thousand ton liner which is now being constructed for the Canadian Pacific on the Clyde. Number 530 is the "Empress of Britain", designed for the St. Lawrence route. In the photograph small figures are seen putting finishing touches to the keel.

Chancellor

CHANCELLOR, April 17.—On Monday evening the Chancellor Memorial Hall was filled in overflowing when practically the whole community and many from points beyond Chancellor turned out to honor Mr. and Mrs. Simon Fraser Jr. and to welcome Mrs. Fraser to Chancellor. Simon recently went to Scotland and brought back a bride. There was a fine dance, music provided by the Chancellor Boys Orchestra. During the evening Mr. Wheatley presented Mr. and Mrs. Fraser, on behalf of their community friends, with a handsome glass of "Fruitland."

Farmers Busy With Seeding Operations

Warm Weather Returns and All Farmers Are Out on the Land

Seeding of what is proceeding at a rapid clip on many farms in the district. The weather is now so warm that the ground is breaking up fast. The return of mild weather has enabled farmers to get out on the land, and seed operations have been resumed all over the district.

"In the district," the weather is now so warm that the ground is breaking up fast. The return of mild weather has enabled farmers to get out on the land, and seed operations have been resumed all over the district.

Double Of Rapsutin, Black Monk Found

Advance Human Interest

Rapsutin, recorded in Russian history as the power behind the throne and the man who dominated the life of the Czar is an important character in "The Red Dance," the Mason. The play is being produced by the Gem Theatre on Friday and Saturday, April 19th and 20th.

It was Rapsutin who repeatedly told the Czar, "You are a Mason," and gave a memorable portrayal of the Black Monk, while Boris Charkay, famous Russian character actor, plays the role of the revolutionist.

"The Red Dance," has Delores Del Rio and Charles Farrell in the leading roles and has been proclaimed by critics one of the most powerful productions that has come to the screen in years. Bassano people remember Delores Del Rio's splendid acting in "Hansons."

Her Beach's sensational tale, "The Mating Call," with Thomas in the leading role, is coming Monday and Tuesday next week, April 22nd and 23rd. It is an amazing play in the typical Red Beach style, about a returned war hero who marries to have a home, and falls in love with a girl.

"The Mating Call," with Thomas in the leading role, is coming Monday and Tuesday next week, April 22nd and 23rd. It is an amazing play in the typical Red Beach style, about a returned war hero who marries to have a home, and falls in love with a girl.

Irrigation Water Needed For Stock

Light Snowfall and Dry Shingles Cause Water Shortage

The C. P. R., D. N. R. and the local farmers are now busy with the work of preparing to supply ditch water to farmers in the irrigation block.

The extremely light snowfall the past week has caused a water shortage in the district this spring. Nearly every slough in the country is dry or almost so, and water is scarce for cattle, horses and sheep. Farmers in the block, particularly around Brooks and Tilley, are asking for irrigation water to supply the needs of their stock. It is an amazing play in the typical Red Beach style, about a returned war hero who marries to have a home, and falls in love with a girl.

ALBERTA FISHRIES

INCREASE IN IMPORTANCE

Fish to the value of \$470,428, were caught in Alberta lakes and rivers in the fiscal year ending March 31st, 1929, according to statistics issued by the Department of Marine and Fisheries, Ottawa. Of this amount \$729,254 represents the commercial catch. White fish headed the list with a total of 2,723,000 pounds valued at \$200,707. Trout stands second with 1,937,100 pounds valued at \$122,312 and pickerel third with 154,500 worth \$82,100. In addition to this the value of miscellaneous fish caught under commercial licenses is placed at \$5,844. The total number of commercial licenses issued during the year was 1,144. Domestic license numbered 356 while 976 were permits given to Indians and half breeds. Under these classes of permits 1,248,900 pounds of fish were caught to the value of \$67,449. None of this fish was sold, however, the licenses carrying no commercial privileges.

DEPARTMENT BULLETIN

NEW BULLETINS

Two new bulletins have recently been issued by different branches of the Alberta Department of Agriculture and are now available for distribution. The first of these "Home Decorations" is published by the Alberta Women's Bureau and will be found to be of particular interest to those interested in home beautifying. The second, entitled "Turkey Breeding and Management" is issued by the Poultry Branch and contains a great deal of valuable information dealing with this profitable farm product.

"Why couldn't they get on together?"
"Well you see, he's a Scot, and she would persist in washing out his shaving brush every morning."

Lawyer: "Can you tell me if the defendant was expensively garbed?"
Negro Witness: "Deed she was nah. Ah knows expensive garbage when Ah sees it!"

Treating Seed Wheat Follow Government Advice in treating your grain by using Copper Carbonate

which aids germination, while the Formaldehyde hinders germination. After ten years experimenting, the Government is strongly urging the farmers to take up this method of treatment.

Roy Smith, Bassano

FOUR HUNGARY MAIDENS

Four new Canadian from Hungary whose native dances delighted thousands in attendance at the Regina Festival.

From whatever viewpoint it is judged, the Great West Canadian Festival recently brought to a conclusion at Regina, was a success. In attendance it eclipsed its forerunner at Winnipeg last year. Its handicraft exhibit covered a wider range, a more comprehensive representation of the peoples of the West had been arranged for and, the words of J. M. Gibson, sponsor of the festival, " Saskatchewan has proved that within its borders is the foundation of an art upon which will be built a structure of national culture finer than that of any other nation on earth." Over a hundred folk-dancers interpreted the dances of many racial groups. Folk-singers numbered over one hundred and sixty. Handicrafts struck response from thousands and it is safe to say that next year's festival, which is already being planned, will receive still greater support and present a follow-up that will be unequalled on the continent. The festivals have been the foundation of the Canadian Pacific Railway.

ALBERTA WHEAT POOL NEWS

IN AN ADDRESS GIVEN BEFORE THE

Wheat Pool, the speaker, before the Lethbridge Board of Trade, E. E. Stenhouse, Wheat Pool fieldman, gave some information of particular interest to the members of the Lethbridge and surrounding towns. In the Lethbridge railway division where the Pool had 31 elevators the surplus grain amounted to 42,556. With a radius of 45 miles of Lethbridge the excess earnings returned to the farmers amounted to 42,556. Wheat Pool farmers at Coalville received over \$10,000; Warner over \$11,000; Thoras, over \$8,000.

Alberta Co-operative Wheat Producers Limited changed its name to the Alberta Wheat Pool, on Monday, April 15th. This change was made largely because the more lengthy official name has never been used, and the Wheat Pool had been the recognized name of the organization. This applies to foreign countries as well as Canada, and it is doubtful if people in England, outside those who do direct business with the organization, would recognize Alberta Co-operative Wheat Producers as the Wheat Pool.

Protest Pool elevator has passed Foremost in total handling of wheat in 1928 crop. Foremost led the Alberta Pool list for some time, but the last official report from the elevator department gave Foremost 37,000 and Protest 37,000.

In a recent talk given over the Alberta Pool radio, O. Z. Buchanan, Western sales manager, stated that the Wheat Pool, should the published report that the Pool was tied up with a Japanese Importing firm and could not sell wheat.

Mr. Buchanan stated that the Wheat Pool was not tied up with any one concern in the Orient, and sold considerable quantities of wheat to an American miller.

A notable feature of Pool meetings held throughout the province this year has been the intense interest taken by the membership in every phase of the Pool organization business. The attendance at most of these meetings has been splendid.

Health Service Of The Canadian Medical Association

Cancer is an old disease. It is described in the writings of the ancients which have come down to us. Only in comparatively recent times has it been understood that the cancerous cells of the body are made up of the same type of cell, all coming from one type of cell. Similarly, cancers arise from each type of cell, and remain of that type. If the cancer begins in the stomach and spreads to the liver, the growth in the liver will resemble stomach cells, not liver cells.

Under normal conditions the cells of the body divide, grow, mature and die. At present, we do not know what controls this process. Apparently when this control is lost or disorganized, cancer occurs which, in some cases, can be cured or mitigated.

There are many theories concerning the cause of cancer, which is another way of saying that there is no satisfactory or generally accepted theory. The disease is a hereditary one. In most cases it occurs after some sort of chronic irritation, such as that produced by broken teeth, teeth which do not meet properly and have sharp edges, and by poorly fitting shoes. The irritation may be due to a chronic inflammation, such as in forced 12th or 13th or of the lining of the stomach. Habitual acidity of the stomach may produce a chronic irritation of that organ. Constipation is probably, also, a cause of the rectum.

It has not been shown that any particular type of diet has any influence on cancer. Our present knowledge permits us to say that its prevention lies in the prevention or removal of types of irritation above referred to. By a regular health examination, these sources of infection may be found and the need for their correction pointed out, which is one excellent reason why everyone should be examined regularly by his family physician.

At present, no real method of cure is by removal or destruction of the growth, once it has developed. If done early, this offers a good chance for cure. If it is early treatment which, alone, is of value.

Questions, concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by correspondence.

The oldest man was a trifle bewildered at the elaborate wedding. "Are you the bridegroom?" he asked a melancholy-looking young man.

"No sir," replied the young man. "I was eliminated in the semi-finals."

PLANTING TREES

(Experimental Farms Note)

"Arbor Day" was born in the prairie part of Eastern Nebraska. Our great empty plains have great opportunity to profit from using the trees for the purpose for which it is annually proclaimed a Provincial holiday. In reality it is not a holiday, but a day set aside for special labor on the part of every citizen—the planting and care of trees.

Experience at the Dominion Experiment Station, Morden, Manitoba, shows that each season some improvements may be introduced in Arbor Day activities. In digging trees, three persons with sharp spades or shovels may work together to advantage. After cutting the roots to a foot or more radius from the tree and removing a trench of soil, then the three spades driven deeply down and inwards, the young tree or shrub may usually be neatly and efficiently lifted by working in union in three places, "one, two, three." This places off the top root and raises the specimen with but small tipping of roots and bark.

Trees set in the open places, where the air movements have free play tend to be blown toward the East by the prevailing winds. "As the twig is bent the tree is inclined," and good practice is to set the specimen pointing from ten to twenty degrees into the west, or if it be an apple tree or Mountain Ash, it may be slanted southwest so that protection from sunlight of the trunk be increased.

Transplanted evergreens may well be given temporary shelter by shading with an old sack or piece of burlap, supported by stakes on the south side of the specimen for three or four weeks.

Evergreens are expensive and carry their foliage during this major operation, in their instance, is performed without the advantage of nature's winter sleep of full dormancy and, supported by stakes on the south side of the specimen for three or four weeks.

All trees should be planted before new leaf growth commences. If one transplants a bare tree when green leaves are showing, the only results will be disappointment and personal distress. This latter comes in two phases—the planting and later removing the corpse.

New side growth is induced by pruning. It is prevalent to clip back with clean smooth cuts all long roots. Strongest roots should be placed in the west, the direction of prevailing winds, where they will serve as anchors.

INTEREST SHOWN IN ALBERTA SALT DEPOSITS

Sir Thomas Tait, president of the Canadian Salt Co., Windsor, Ontario, will shortly pay a visit of inspection to the salt deposits in northern Alberta, according to information received by Hon. V. W. Smith, Minister of Railways and Telephones. In his position as head of the largest company of its kind in the Dominion, Sir Thomas is reported to be interested in possible developments in this promising Alberta industry.

REPATRIATED CANADIANS

FOR PEACE RIVER DISTRICT

Marking the beginning of a considerable movement of French-Canadian origin who are returning to Canada from the New England States a party consisting of 187 men, women and children, is expected to arrive on their way to a number of districts in the Peace River country. Settlement will be principally in the vicinity of Kathleen, southeast of Medicine Hat. The party is being organized by the Canadian War Veterans' Association and the committee in charge of the recent "Better Seed Campaign" promoted under the direction of the Provincial Department of Agriculture.

PRIZES OFFERED FOR

BEST WHEAT CROP

Substantial prizes will be awarded in a competition sponsored by the Starvo Board of Trade and the Vail, Can and Nanton Agricultural Societies for the best ten acres of wheat in Southern Alberta during the coming summer season. The decision to organize the competition followed a speaking tour by Major H. G. L. Strang and H. H. Galt, M. L. A., under the auspices of the Canadian Seed Growers' Association and the committee in charge of the recent "Better Seed Campaign" promoted under the direction of the Provincial Department of Agriculture.

A Tremendous Increase in Public Acceptance

FOR years McLaughlin-Buick has led the world in fine-car sales. For years the proven McLaughlin-Buick engineering principles have been acclaimed by an overwhelming majority. But now a tremendous increase in public acceptance has resulted in establishing during the past month, a new sales record for all time. Because here, in addition to the powerful, triple-valve, valve-in-head engine; the famous torque-drive; the cantilever rear springs and the wonderful sealed chassis, are new, revolutionary standards of performance and riding ease, and new beauty and luxury of Masterpiece Bodies by Fisher!

You have but to drive this great car to understand why it is literally breaking all sales records for cars at or above its price.

At a wedding reception the young man remarked, "Wasn't it amazing the way that baby cried during the ceremony?"

"It was simply dreadful," replied the girl, "I'm going to have engraved right in the corner of the invitation, 'No babies expected.'"

ALBERTA HONEY GRADERS VERY HIGH

Lethbridge—"Southern Alberta bee keepers produce better honey than is generally found elsewhere, and which would command a premium over the best orange blossom brand made by the bees of California," said J. B. Wing, of Cottonwood, Cal. bee and honey expert, to whom an average sample of southern Alberta honey was submitted. He thought that the premium would be about three cents if Alberta honey were graded and if the two honeys were held in competition.

Local News

R. P. Carro made a business trip to Calgary Monday evening.

Dr. A. G. Root was a visitor to Calgary on Monday last.

G. A. McDonald spent the week-end in Calgary.

A flock of wild geese was seen heading northward on Saturday.

The dance at Latham last Friday evening attracted a number of the young people from Bassano.

Miss Hilda Ward, of Halifax, Nova Scotia, is the guest of Mrs. T. M. Simpson for a few days.

Chas. Hopkins is now in Medicine Hat in charge of car repair work. He will probably be there until summer.

Harvey Smith was a business visitor to Calgary this week, going up on Sunday.

Mrs. Brewer has moved in from the farm at Mapleton, and will now live in Bassano.

Mr. and Mrs. T. A. Hawkshaw and S. Lela were down from Hussar Sunday afternoon. T. A. says a golf course has been laid out on the forty-acre plot recently acquired by the village.

T. B. Lawrie, of the Canadian Bank of Commerce staff, has been transferred to Banff. Mr. and Mrs. Lawrie and family left on Monday for their new home.

E. B. Mitchell, from the Edmonton district, is the new accountant in the local branch of the Canadian Bank of Commerce, taking the position vacated by T. B. Lawrie.

Harry Holmes came in last Saturday night from the Wm. Whitney farm. Mr. Whitney lost his barn in the prairie fire a few weeks ago, and Mr. Holmes has just completed building a new one.

Bert Partinton left Saturday last for Portland, Oregon, where he will visit with his daughter. Mr. Partinton will be away about three weeks, and on his return will resume operations with his well drilling outfit. He says there are a large number of water wells to be drilled in this and neighboring districts this summer.

PEA AND OAT MIXTURE FOR PORAGE

(Experimental Farms Note)

Pea and oat mixtures are common grown and considered desirable forage in the older parts of Canada. In the West, however, they are grown very little, partly because less stock has adapted and partly because many attempts to grow a quality have failed. Various mixtures and methods of sowing have been tried out at Southern Experimental Station and this article contains results derived from these tests during the last five years.

Three varieties of peas and two of oats have been used in mixtures and the most desirable combination we have found to be, the Victory oats and Mackay peas. Both are strong, tall growing, and mature at about the same time. This allows for harvesting at the best stage for forage which is when the oats are turning color and the peas are well filled with peas.

Mixtures and methods of sowing were: 35, 50, and 75 per cent. peas mixed with oats and sown together. Peas and oats were also sown in equal amounts separately, the peas being sown one week and two weeks before the oats. Where mixtures were sown the drill was set at four bushels of oats per acre. Mackay peas and Victory oats were also sown alone for purpose of comparison.

Peas sown one week and two weeks before the oats, and 75 per cent mixture of peas, yielded more cured hay than either oats or peas alone. Where 75 per cent of peas were sown with the oats, the percentage of pea vine at harvest was about 40, where peas were sown one week earlier than the oats the percentage of pea vine was 60, and where two weeks earlier, 70 per cent. The other mixtures yielded less than peas or oats alone and contained a small percentage of pea vine at harvest time. Sowing peas one week before the oats is possibly the best method of insuring a crop with a fair amount of pea vine each year. If the peas are sown two weeks previous to the oats, they get too strong a start and are likely to lodge before harvest, making cutting difficult; and where sown together the oats will overcome the peas and a small percentage of pea vine will be the result.

Where a pea and oat mixture is desired, we would recommend using Mackay peas and Victory oats. Sow the peas about one week before the oats and set the drill for each at two bushels of oats. Cut when the oats are commencing to turn color to get the best quality of feed.

Notice

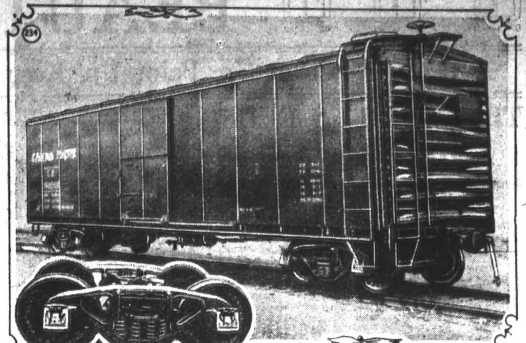

TOWN OF BASSANO

NOTICE OF PREPARATION OF ASSESSMENT ROLL

NOTICE is hereby given that the Assessment Roll of the Town of Bassano for the Year 1929 has been prepared and is now open for inspection at the office of the Secretary Treasurer of the Town from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday except Saturdays; and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed on any property, must within thirty days after the date of this notice lodge a complaint in writing with the Secretary Treasurer of the Town.

Dated this 16th day of April, 1929.
JAS. R. DONALDSON,
Secretary Treasurer.

Steel Cars Now for Freight Service

Steel is replacing wood in freight service and seventy-five hundred of the new freight cars now on order for the Canadian Pacific will set a new standard in grain and general freight service. These cars are not in replacement but in addition to the wood cars already in use, and will furnish a greater margin of safety, more speed and longer service while eliminating leakage.

They will have a capacity of 2,000 bushels of wheat and will considerably speed up the movement of grain. Rivetting of all joints and connections will reduce to a minimum possibility of loss of grain and the car itself will be more rigid and will possess greater rigidity. The roof of the car will be steel as well as the whole structure, but the sides will be wood lined inside.

Additional safety will be provided by a new type of truck having a cast steel frame. These truck side frames which represent a new standard of Canadian Pacific equipment, are one integral casting. Elimination of parts in the car proper is another noteworthy feature.

Dimensions of the car are 40 feet 9 inches in length, 8 feet 7 inches high, and 8 feet, 7 1/2 inches wide. They will have 5 foot side doors and a capacity of 120,000 pounds.

The new cars represent an important advance in railway freight transportation on the continent and they have been developed more directly to keep pace with the development of the west. In recent years crop acreage has increased. Car loadings have increased in like measure. Improved harvesting machinery has speeded up delivery to the rails and necessitated still more efficient handling on the part of the railway companies.

Delivery of the new cars will be made in ample time for the harvest of 1929 and the Canadian Pacific may be expected to again break the record of crop handling.

TEST MILLING QUALITIES OF GARNET WHEAT

Port William—Between 4,000 and 5,000 bushels of Garnet wheat has been shipped overseas for trial flour-making, under joint arrangements of the Dominion Department of Agriculture and the Canadian Wheat Pool. The future of this type of wheat will largely depend upon whether this present lot meets

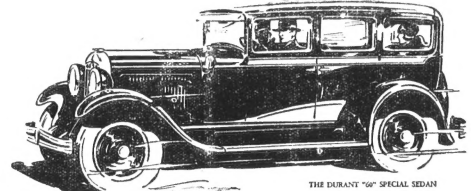

with favor among the millers of Great Britain.

CANADA EXPORTS MANY AUTOMOBILES

Montreal—Dominion Bureau of Statistics—figures show February exports of automobiles to be twice as large in volume as those for the same month last year, the largest buyers being the United Kingdom

South Africa, Australia, British India, and New Zealand while there were also some sales to Argentina, Dutch East Indies, Egypt, and the United States. February's export of passenger cars amounted to \$3,362,973, compared with \$2,479,615 in January and \$1,491,609 in February 1928. Exports of trucks amounted to \$1,221,716, as against \$1,337,207 in January and \$106,472 in February 1928.

DEVOTED TO QUALITY

THE DURANT "60" SPECIAL SEDAN

THE DURANT "60"

All the Attractive Features

of the new Durant "60" will be thoroughly explained to you by the Durant dealer in your locality.

It will tell you about the refinements to the Red Seal "L"-head Continental Motor, about the new type steering gear, about the Bendix Four Wheel Brakes . . . about all the mechanical perfection and quality units that Durant cars possess.

It will take you out in a "60" . . . or any model you wish . . . and let you drive it, so that you can compare its performance and excellent riding comfort with any other car at or near its price. You will be absolutely free to make your own choice . . . at your convenience.

SPRING SHOWING

of the

NEW CHEVROLET SIX

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies—lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on "Cleanliness has a history. Its influence can be traced down the ages. Those races that were clean were the races that were Masters."

The Athenians, with their baths and beautiful homes centered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens best back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the dirtiest monarch France ever had and one of her mightiest. Fifth kept the Panama Canal from being built years before it finally was. The Berlin gardens during the dirty and the ignorant galled in Russia—sanitary breeds in filth and squall.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war.

Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play to end it.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Ten, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. It won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make

your home, your street, your business and your neighborhood clean and unsightlyness abdicate forever.

Women wire fence the painting can

is woven very easily by making a shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly coat every part. A good metal paint is best for this purpose.

A paint which makes concrete surfaces non-absorbent and sheds water rain water, and keeps the value of concrete buildings for cow stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural shades and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted. Clean the water gets under the shingles causing them to rot and curl up. It is always best, however, in putting on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now—days as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration with paint but also to forestall paint trouble. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. Dampness in the Wood. This means not only wood which is damp but also wood which is damp and poorly seasoned, recently exposed to rain or fog.

The pores in kiln-dried lumber are open and will absorb moisture. For this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, best will drive it out. If it heat on the inside of the house drives it outward the paint will peel.

2. Dampness Back Of the Wood. This is commonly due to green plaster. Too often in a hurry to complete a house the painters are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. Drying Cracks. Common cause is the cheapest pigment, and when one remembers that the price cost is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how vital is the statement so often made "Anything is good enough to prime with." Cheap oil is nothing but clay stained, which makes a slippery, brittle paint.

4. Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away. If old paint is not firmly attached to the wood it will crack and flake off in the drying of the new paint will peel it off. Repeat before the old paint begins to let go. It's poor economy to delay repainting.

In case the under coat is brittle, scrape, sand-paper, and wire-brush will loose particles before repainting. If too far gone remove with a paint scraper. Always remember three coats of paint are better than two thick ones. The thicker coats may

save a few dollars in the beginning but may cost more than double in the end.

5. Post Restroom Wood Work Properly Seasoned Or Prepared For Painting. This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and rosin. It is the rosin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting.

When given a glass, vitamin, the fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual. The paint must be thin, but when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the pores was necessary to success on yellow pine.

6. Boiled Oil. Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation involves the use of turpentine, and the priming coat should always be flat, or the succeeding coat will be adhered to it. Boiled oil should never be used for any coat outside painting.

Paint may fall from causes other than those named because of application on dirty or greasy surfaces, because of leaky roofs; because of the use of any failure to gain weight, and the priming coat should always be flat, or the succeeding coat will be adhered to it. Boiled oil should never be used for any coat outside painting.

The First Clean-Up

Safety and Fire Prevention in Clean-Up and Paint-Up Campaign

Prior to the first Clean-Up and Paint-Up campaign in Cincinnati, the fire loss in a year totaled \$1,340,000. The year after the campaign it was reduced to \$370,237.

This saving of more than \$900,000 in actual property loss brought about a reduction in the annual insurance premiums aggregating \$100,000 in the business section alone. The campaign, which the Chamber of Commerce started, but which was supported by all interests, cost only \$10,000.

Similarly the city of Decatur, Ill., reported a fire loss of \$164,010 during the year before the campaign. The following year the loss was only \$63,467. Fire losses in Rochester, N.Y., also were reduced 40 per cent. after only one Clean-Up and Paint-Up campaign.

What a campaign does in the beginning is to bring about the cleanliness in the home, the street, the trash—old papers, rags, oily scraps and waste from dark corners, attics, basements and closets of houses, and the removal and lowering of rubbish piles outdoors. Records show that 90 per cent. of all fires are preventable and most of them start in just these places.

Some time ago the Saturday Evening Post printed an article that clean the car and house, does not get clean town—a town that is a good place to live in and that looks it. The article said, in part:

"Materialists and the Commercial Club is usually 98 per cent. strong on material results—usually overlook the commercial value of the aesthetic."

A man may live in a pig sty and get used to it; but even he notices the difference when he gets out. A town may be so used to dog fecal matter and garbage on the streets, and mosquito-breeding ponds along the roads, and tin cans and rotting rags in back alleys—It does not hurt the nerves and stuns and chills every time it sees itself. But the stranger who sees it star off, even when he is a stranger, and he is not unless he is compelled to, then and gets away on the first train. Moreover, the looks of a town unquestionably give the spirit of the people. And a ragged town has a ragged soul."

Instead of swelling to nine a \$50,000 bonus to hire some alleged manufacturer to come to town, the Commercial Club had better raise \$500 to clean up the town and make it fit to come to.

"It is easy to say that bread is more important than flowers. And it is true. But bread is not the world are bread and shelter. But 90 per cent. of the people in the county towns and smaller cities are above and below the bread line. At least 90 per cent. of them have some luxuries. The first and most important luxury is a pleasant environment. Practically all the people see the town every day."

"If the streets are clean, the lawns well clipped, flowers in the yard, the air sweet, the water clean—one does not require either wealth, taste or culture to enjoy that. Consequently, every person gets some sort of pleasure from a town of that sort."

"It makes people want to stay. And when people want to live in a town, when it is so healthy, so attractive, so pleasant that they love to go to it and hate to leave—they are going to build their homes, their businesses, and build their own factories. They will find ways of earning a living."

They will find ways of earning a living."

They will find ways of earning a living."

They will find ways of earning a living."

Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your home, offices and stores in other than metal boxes. Use safety matchboxes.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and lit by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ash in other than metal cans.

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous dangers.

Loss through preventable fire in the United States is \$250,000,000 a year. The loss to the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increases property values; remove unsightly buildings; swell the city's cleaner and homes; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and "clean up" and paint up.

These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.

2. Suggest to several men with teams that they drive through the alleys with a sign, "Clean-Up Week" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alleys ways.

4. Make your street and parking look as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flowers seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the view of your home and business. Open spaces and fresh air are better.

9. If your walk is an eyesore to the travelling world, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

CHAPTER XVII—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the place as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weedy cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Laforte urging his tired mount toward the Peabody trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their heads and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Laforte struck the man a blow with his heavy whip that loosened his hold and fell him to the ground. Connie saw Gills break from the crowd, jump to the saddle of a cayuse and start after the fleeing henchman just as the latter disappeared in the woods. Gills waved his hand to her and vanished in pursuit. She urged Peagusa to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and she had dropped wearily as he dragged his tired limbs up the steep trail.

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms restlessly around his neck and stroked his symmetrical head with soft caresses.

"FEEL WELL AND STRONG"

DR. J. E. MALIN
R.R. No. 4, Huron St., Huron, Ont.
"I have to work in the store and do my own housework too, and I got nervous and run-down and was in bed nearly all summer. The latest noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have made me stronger and put more color into my face. I get along nicely now with my work and with my four children. I would like to answer letters."—Mrs. J. E. Malin.

MRS. FRANK LUKAS
R. R. No. 1, Box 28, Lusk, N. Dakota
"I have two babies which I lost in the seven months. Before my third baby was born my husband advised me to take your medicine and he bought me three bottles of it. When I had taken the first one I began to feel better so I kept on drinking the second and the third. I have a healthy baby boy and we are so proud of him and praise Lydia E. Pinkham's Vegetable Compound for the help it gave me. I feel well and strong."—Mrs. Frank Lukas.

Lydia E. Pinkham's Compound

Lydia E. Pinkham's Medicine Co., Lynn, Mass., U.S.A., and Coubourge, Ontario, Canada.

"No, no, sorry, Peggy darling," she said in a choking voice.

The horse jumped her shoulder in a weak attempt to playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy," she whispered softly as she nuzzled her cheek against his soft mane, "do you know what I can have more nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your harness."

And you, Peggy—with a flood of tenderness in her voice—"you won't all this for me?"

She was crying sweet, nothings in his ear that only Peagusa could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Connie darling?"

Connie stepped forward. She was pale and weak, but her colorless lips tried to form a smile. "Yes, Daddy, dear—I'm all right." Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken dove into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, his father carried her to the cabin and tenderly stretched the bruised little girl on the coarse blankets of her bunk.

CHAPTER XVIII.

At the race-course the judges' stand, or, at least, the group of judges, had observed the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere toy.

Gills came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did he get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted, "I got the d—d skunk," he answered savagely.

He turned to a group of Indians who followed better luck than when you get along; big eyes—big eyes—kinds a-bow."

Donald came to the front of the judge's stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman before me, calling down at Andy, 'Will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Good for you!'"

The crowd cheered lustily. Then, jostling each other good-naturedly like a lot of schoolboys, they formed a ring around the speaker.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was head-dropped wearily as he dragged his tired limbs up the steep trail.

"Peggy!" Jack came to Donald in great perturbation. "Say! Our gang's all story-book. Can we sign a deed for it?"

Donald called the time-keeper. "Make her out for twenty bucks for each of us."

"Jack!" Jack's face was pale and his hair was matted as the pile rose higher.

"God bless 'er little 'eart!," he murmured, "she can 'ave an 'ole ship-load of them blinkin' canibos things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul, who came out again at York Factory March 1, the first known person to make the 800-mile trip. From there they traversed the Nelson River to Hudson Bay, coming out to the railway at Amery north of The Pas.

Many tribes of Indians were visiting, including an encampment which had been visited only once before by a white man. The tribe was hunting in a most primitive state. On the Manitoba-Ontario border they found a vast uninhabited plain to the east of Lake Lake.

Dress All Your CUTS & SORES WITH ANTISEPTIC Zambuk

For each of us," said "Fighting" Jack. Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart!," he murmured, "she can 'ave an 'ole ship-load of them blinkin' canibos things."

Helium Gas

British Air Ministry May Secure Supplies From Alberta

A cable from London indicates that helium gas for use in airships may be obtained in Canada by the British Air Ministry. Large quantities of helium gas can be produced from the gas wells of the Bow River in a South Saskatchewan Valley to the south and west of Medicine Hat. Production of helium in commercial quantities was first accomplished in Canada during the war.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to be perfect in body and mind and childhood, but she can do much to help them fight the battle for health.

All prudent mothers actually keep at hand the means of restoring their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children, Baby's Own Tablets should be found. Head what Mr. Hill, Centre, Ontario, says concerning these Tablets—"I am a mother of six children and would be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, jaundice, constipation and indigestion and allay the irritation accompanying the cutting of the teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ontario.

Luckaby For Motorists

Birmingham motorists should guard against auto-theives every night, the police department in Birmingham, Alabama, cautions.

Records show more than twelve as many autos are stolen on Friday nights as on any other during the week. Officials believe the cars are used to run liquor on Saturday. They are usually found abandoned on Monday.

Recipes For This Week

(By Betty Barclay)

GELATIN CAKE PUDDING

1 package cherry or raspberry flavored gelatin.
1 cup boiling water.
1 cup cold water or fruit juice.
2 cups plain cake, dried.
(state cake may be used)

Dissolve the gelatin in boiling water. Add cold water or fruit juice. Chill. When slightly thickened, fold in cake. Pile in sherbet glasses. Serve plain, with custard sauce, or with whipped cream. Serves 6.

MINN DAY GOODBY

Cook salad measured in boiling water 15 minutes, drain, rinse, add minced onion, season and pack in ring form around large platter. Use as a salad, or serve as a centerpiece of macaroni ring. Place therein also bacon. Add flour to grease in pan, make thick gravy with water or milk and pour over salad.

Australian Wine Firm

An old-established wine firm of Australia has incorporated into the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

Out of every twelve dolls manufactured, it is said, only one is a girl. When probably as many as the girls become partial to boys after they pass the doll stage.

Minard's Liniment

Explore Uninhabited Territory in Canada

New York Man Accompanied by Ben Mahr Long Trek

W. A. North of the Explorer's Club, New York, and his fourteen-year-old son, Robert Carter, reached Winnipeg recently from The Pas after a trek across hundreds of miles of uninhabited hinterland territory. Accompanied by Indian guides and men with their dog teams, they have been in the North for several months. They left Hudson, Ont. Christmas Day and came out again at York Factory March 1, the first known person to make the 800-mile trip. From there they traversed the Nelson River to Hudson Bay, coming out to the railway at Amery north of The Pas.

Many tribes of Indians were visiting, including an encampment which had been visited only once before by a white man. The tribe was hunting in a most primitive state. On the Manitoba-Ontario border they found a vast uninhabited plain to the east of Lake Lake.

Says Heroic Nurse Not Killed As Spy

Defender Of Edith Cavell Declares Germans Made No Charge Of Spying

Maitre de Leval, who defended Nurse Cavell, recently related at the Author's Club, in London, the story of her trial, sentence, and death. He said he had heard some people, even in England, say that she was rightly killed because she was a spy. She was not. Even the Germans never said that she was. In all the statements made in the indictment against her there was in each case only one charge, "Frequenting a house to the enemy." All that she wanted to do was to save soldiers from death, and she declared before the Court: "I acknowledge that through my intervention 200 men have been led up to the frontier." Nurse Cavell died on October 12, not as some people had said, by collapsing at the execution post and being shot by a German officer, but as a hero.

Little Helps For This Week

"Which hope we have as an anchor of the soul, both sure and steadfast."—Hebrews vi, 19.

Wherefore, Soul, despair thou never! What though thou tread with bleeding feet.

A thorny path of grief and gloom. Thy God will cross the way most true.

To lead thee heavenward, lead thee home.

For this life's long night of sad-ness.

He will give thee peace and gladness; Soul, remember in thy pains. God our all for every pains.

Who can really think that he will find hope? You were in my mind last night, and you brought a little light to me. I am not a saint of life and fear of extinction. When we despair and discard things, it is our senses in revolt, and they have made the sovereign brain the drug. I heard you whisper, "There is nothing the body suffers that the soul may not profit." With that I fall into the dark; it is my promise of the immortal—teaches me to see immortality for us.

—George Meredith.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from putting corns with an infected razor. Quick safe relief from cutting corns with NAMS' CORN EXTRACTOR. If afflicted with corns, calluses or sore foot-joints, use "NAMS" as a reliable, and sure to relieve you corns. So they do not suffer from the soreness, but quick relief from corns comes from using NAMS' CORN EXTRACTOR. 25c. at all dealers.

Recipes For This Week

(By Betty Barclay)

GELATIN CAKE PUDDING

1 package cherry or raspberry flavored gelatin.
1 cup boiling water.
1 cup cold water or fruit juice.
2 cups plain cake, dried.
(state cake may be used)

Dissolve the gelatin in boiling water. Add cold water or fruit juice. Chill. When slightly thickened, fold in cake. Pile in sherbet glasses. Serve plain, with custard sauce, or with whipped cream. Serves 6.

MINN DAY GOODBY

Cook salad measured in boiling water 15 minutes, drain, rinse, add minced onion, season and pack in ring form around large platter. Use as a salad, or serve as a centerpiece of macaroni ring. Place therein also bacon. Add flour to grease in pan, make thick gravy with water or milk and pour over salad.

Australian Wine Firm

An old-established wine firm of Australia has incorporated into the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

Out of every twelve dolls manufactured, it is said, only one is a girl. When probably as many as the girls become partial to boys after they pass the doll stage.

Minard's Liniment

Minard's Liniment for the Gripe and Flu.

Minard's Liniment prevents Flu.

PHILLIPS' MAGNESIA

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all, actually, effective, yet harmless. It has been the standard cathartic for 20 years among physicians everywhere. One spoonful will neutralize all excess acids in the stomach. It is the most reliable, the quick, pleasant and safe laxative. Each bottle contains full directions—any drugstore.

Long Air Trip Planned

One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

Vinegar used in place of water when using plaster of paris will keep the plaster softer for a longer time than water.

Local News

The annual dance of the Bassano Tennis Club will be held Friday evening this week April 19th, in the Masonic Community Hall. While will be played in the fore part of the evening.

Miss Mary Guthrie, student at the U. C. L. in Calgary, made a very good total of marks in the Baster examinations.

Mrs. J. Allan was in Calgary this week attending the marriage of her niece, Mrs. Dorothy Huddleston, to Mr. Douglas Frew.

Roy Hayes, who for the past three weeks has been relieving ledger keeper in the Bank of Commerce here, has been transferred to Coalhurst, Alberta, and leaves for that point in a few days.

A baby girl was born to Mr. and Mrs. F. J. Martin, of Strathmore, on Monday, April 15th, at the Bassano Hospital.

Mrs. A. Reifenstein, of Standard, is a patient in the hospital here. She is getting along nicely after an operation.

John Gasi, a Hungarian, accidentally shot himself in the abdomen, last Saturday, April 13th. He was brought to the Bassano Hospital, and although the wound is a serious one, he is getting along fairly well. The accident happened several miles north of Bassano. Gasi is a Hungarian, and has a wife and children back in his home land.

Miss Jean Wallace is now chief operator on the local telephone staff, and Miss Jessie Yale is night operator.

Wedding

PREW-HUDDLESTONE

A very pretty and quiet wedding was solemnized in Knox United Church, Calgary, on Wednesday, April 17th, when Miss Dorothy Huddleston became the bride of Mr. Douglas Frew, of Calgary. Miss Huddleston has been chief operator on the Bassano telephone staff for the past number of years, and is one of Bassano's well known and popular girls. Mr. Frew is also known in and around Bassano, but he has been living in Calgary for the past year. The marriage ceremony was performed by the Rev. Dickson, pastor of Knox Church, at 7:30 o'clock Wednesday evening. Miss Jeanne Playfair, of Calgary, was bridesmaid, and Thos. Wallace, of Calgary, supported the groom. Mrs. J. Allan, of Bassano, the bride's aunt, was present at the ceremony. Mr. and Mrs. Frew will reside in Calgary.

CARD OF THANKS

We wish to express our sincere thanks for the kindness our many friends showed to little Edna while she was a patient in the Bassano Hospital.

Mr. and Mrs. Geo. Taitson, Lethbridge.

STEEVEVILLE ROAD
LANDING AREA
IN MOVING PICTURE

Other Scenes Taken at Calgary Stampede and in Banff Park

Bassano people will be particularly interested in "His Destiny," a picture taken at the Calgary Stampede last year, and with scenes taken in the Steevehille Road Lands, and the magnificent scenery of Banff National Park. This picture is coming to the Gem Theatre Friday and Saturday next week, April 26 and 27. It is the product of a Canadian company, with Canadian artists, and Canadian setting.

Many of the "sets" were made in the Steevehille Road Lands along the Red Deer river, and at the Slide Brook ranch, near Steevehille. Other parts of the picture show the magnificent scenery in Banff National Park, and many scenes at the Calgary Stampede last year. Miss Barbara Kent, a Calgary born girl, and Neal Hart, play the leading roles.
